EXPLANATORY NOTES

Introduction

This publication is one of the *Bulletin 3* series presenting detailed cross-classified tables from the 1981 Census of Population and Housing of characteristics of persons and dwellings in the States, Territories and Australia. Persons were counted where they spent the night of 30 June 1981.

Content

2. The tables in this publication are divided under five major themes, namely birthplace, income, labour force, demography and social and housing. The major theme of each table determines the section in which data on particular characteristics appear. For example, the table on birthplace by age appears in the birthplace and not the demography and social section. However, tables classified to the major themes (Sections) in this way may be cross-tabulated with a variable constituting a primary theme for some other section. In such cases, a cross-reference to the secondary variable is made in the appropriate section in the list of contents.

3. Some tables are footnoted for clarity and footnotes are contained at the end of these explanatory notes. Further details on individual topics and classifications can be obtained from the relevant information papers. (See 'Related publications'.)

Confidentiality of statistics

4. To avoid the inadvertent release of identifiable information, the tables in this publication have been subjected to slight random adjustments. The random adjustments are insignificant in relative terms except for all numbers too small to be of statistical significance. For this reason, some discrepancies may appear in table totals.

5. Further details can be obtained from *Census 81—Effects of Introduced Random Error* (2156.0).

Section of State

6. The geographic division, Section of State, is used in Tables 70, 71, 72, 73 and 76. It identifies aggregations of census collection districts on a basis which ignores legal boundaries. Five Sections of State are generally defined for census purposes; in this publication, however, bounded rural localities and rural balance are combined into one category—'rural':

- (a) major urban—urban centres with a population of 100,000 and over;
- (b) other urban—urban centres with a population of 1,000 to 99,999;
- (c) rural—
 - (i) bounded rural locality—population clusters of 200 to 999 persons; and
 - (ii) rural balance—the remainder of the State or Territory;
- (d) migratory—see explanation under 'Definitions'.

Scope and coverage

7. The 1981 Census of Population and Housing aimed at counting every person who spent Census night, 30 June 1981, in Australia including persons on vessels in or between Australian ports, on board long-distance trains, buses or aircraft. All dwellings were counted, whether occupied or unoccupied. People were counted where they were on Census night, which may not be where they usually live. Visitors to Australia were enumerated regardless of how long ago they had arrived or how long they planned to stay. Australian residents out of the country on Census night were excluded from the count.

8. Diplomatic personnel and their families are, by definition, out of the scope of the Census, as are diplomatic residences.

9. While every effort is made to minimise under-counting in the Census, some inevitably remains for various reasons (e.g. inadvertent omission of very young children, treatment of some dwellings as unoccupied when, in fact, they were occupied, and failure to find all dwellings). Refusal by householders to complete the Census Schedule is not a significant cause of under-counting.

Definitions

10. *Dwellings*—For Census purposes, dwellings are classified into two groups: occupied and unoccupied. Occupied dwellings can be either private or non-private while unoccupied are private only.

- (a) An occupied private dwelling is defined as the premises occupied by a household on Census night (for definition of *Household* see below). A *private dwelling* is normally a house, flat, part of a house or even a room but can also be a tent, houseboat, or caravan if standing on its own block of land and not occupied by members of the same household resident in an adjacent dwelling. It is important to remember that the Census definition of a private dwelling means that the total number of dwellings may be more than the total number of known structures in any given area (see *Household* below). *Non-private dwellings* are hotels, motels, boarding houses, gaols, religious and charitable institutions, defence establishments, other communal dwellings and caravan parks. Usually occupants of such dwellings use communal facilities (such as hotel dining rooms or mess halls) attached to the particular establishment. A caravan in a caravan park (whether permanently or temporarily located) is treated as part of a non-private dwelling as are self-contained units provided by commercial enterprises such as hotels, motels and guest-houses.
- (b) An unoccupied dwelling is a structure built specifically for living purposes and capable of being lived in but unoccupied at the time of the Census. Vacant houses, holiday houses, huts, cabins (other than seasonal workers' quarters) and houseboats are counted as unoccupied dwellings but vacant tents, garages and caravans (if not normally occupied) are not. Also included

are newly completed dwellings not yet occupied; dwellings which are vacant because they are due for demolition or repair; dwellings to let; and dwellings where all members of the household were absent on Census night.

11. *Household*—For Census purposes, a household is either a person living alone or a group of people living together as a single domestic unit with common eating arrangements. It is possible for more than one household to live in one house or structure. For example, a lodger who lives with a family and provides all his own food is not a member of the family's household but constitutes a separate household and therefore completes a separate householder's schedule. Because an occupied private dwelling is defined as the premises occupied by a household on Census night (see above), the number of households and the number of occupied private dwellings is identical and the number of occupied dwellings, as defined for Census purposes, may be greater than the known number of structures.

12. *Migratory*—Persons enumerated on board vessels in and between Australian ports, or on board long-distance trains, buses or aircraft are classified as *Migratory*. Such persons are not included in the population of specific LGA's, but are shown as a balancing item in the population of a State or Territory.

13. *Campers out*—Persons who spent Census night in the open in cars, caravans or trucks pulled up at the side of the road for that night only, or persons in other temporary camps or accommodation erected for that night only are classified as campers out. Such persons are included in the population of the LGA in which they were enumerated.
